

Environmental Ambitions

1. To reduce single use plastics.
2. To use local suppliers wherever possible.
3. To minimise waste and increase recycling.
4. To encourage social and environmental responsibility.
5. When technology is available, to carefully consider the appropriateness or otherwise of investing in new equipment that will make viable positive differences to the way the Town Council operates.
6. To include an increased weighting on greening issues when inviting companies to tender for Town Council work.
7. To continue to encourage the parish to shop local, in the common interests of the vitality of the High Street and the local economy beyond.
8. To encourage the parish to drink more water.
9. To continue to use appropriate materials as part of an ongoing maintenance schedule.

Adopted by Council 24 June 2019
