

Environmental Ambitions

- 1. To reduce single use plastics.
- 2. To use local suppliers wherever possible.
- 3. To minimise waste and increase recycling.
- 4. To encourage social and environmental responsibility.
- When technology is available, to carefully consider the appropriateness or otherwise of investing in new equipment that will make viable positive differences to the way the Town Council operates.
- 6. To include an increased weighting on greening issues when inviting companies to tender for Town Council work.
- 7. To continue to encourage the parish to shop local, in the common interests of the vitality of the High Street and the local economy beyond.
- 8. To encourage the parish to drink more water.
- 9. To continue to use appropriate materials as part of an ongoing maintenance schedule.

Adopted by Council 24 June 2019
